

Art:

Create a Creature

Design a new sea animal – large or small.

Draw it and label the adaptations that will help it live in its habitat.

- ◆ **Is it a predator, or herbivore, or filter feeder?**
- ◆ **Will it live on the surface, swimming around, or burrowed into the sea floor?**
- ◆ **Could you join together two existing animals, e.g. a fish and a bird, to create a new species?**
- ◆ **What senses will it use?**

Species name: _____

Habitat: _____
